

Who we are:

NEXA | EAM, founded in 2015 in Ireland, began with just one client and one employee. Today, we are a trusted advisor to leading companies in the Life Sciences industry around the world with a growing team of over 100 employees. Our team of understanding, talented professionals create value for leading Life Sciences companies by focusing on the delivery of Asset Management solutions to enable world-class production. Our commitment to achieving excellence helps our clients accelerate the delivery of life-changing products to market. We achieve this through our people, who are always our highest priority. Are you ready to join a growing team that values your contributions, development, and wellness?

Here's what you'll get:

- Work Life Balance.
- Work from home flexibility.
- Never a dull moment! - Exposure to diverse projects with collaborative teams.
- A work environment that is both rewarding and challenging.
- Successful training program to acclimate you in your new role & continued learning, including tuition reimbursement and weekly dedicated time towards development.
- Competitive Full-Time Benefits including Paid Time Off, Health, Retirement, Education & more!
- In-person and virtual social gatherings and events.

NEXA | EAM is searching for:

A full-time, Reliability Engineer I to support our clients with activities related to the set up or optimization of their Reliability programs in Elkton, VA. This role is expected to be on-site. You will work on one of our new, leading Life-Science clients and will report directly to a NEXA | EAM Project Manager.

About the job:

- Assisting clients with developing best practice Planning and Scheduling.
- Developing best practices for MRO Management.
- Creating Maintenance Procedures and PMs.
- Performing Failure Mode Effects Analysis (FMEA).
- Performing Criticality Analysis.
- Performing audits of the current Reliability Program.
- Asset Criticality and Risk Assessments.
- Assist with other projects, as required.

We are looking for people with:

- Associates, bachelor's degree, Military, or trade certification in a related Engineering field.
- Knowledge and understanding of Reliability Maintenance concepts.
- Strong computer skills including advanced proficiency in MS Office, specifically MS Excel.
- Strong understanding of software platforms.
- Strong interpersonal and communication skills.
- Flexibility to relocate within the U.S. if needed for project assignments.

Desirable:

- Experience with BI tools.
- 1-3 years of experience in Reliability/ Maintenance.

You will be a match if you are:

- Understanding of your client's and colleague's needs.
- Willing to operate the NEXA way, every day, by showing relentless drive in ensuring success.
- Attentive to detail and believe passionately in "Right First Time."
- Proactive in everything you do.
- An advocate of continuous improvement, which is vital to continued success.
- Adaptable and flexible to meet client and project needs.
