

Who we are:

NEXA | EAM, founded in 2015 in Ireland, began with just one client and one employee. Today, we are a trusted advisor to leading companies in the Life Sciences industry around the world with a growing team of over 100 employees. Our team of understanding, talented professionals create value for leading Life Sciences companies by focusing on the delivery of Asset Management solutions to enable world-class production. Our commitment to achieving excellence helps our clients accelerate the delivery of life-changing products to market. We achieve this through our people, who are always our highest priority. Are you ready to join a growing team that values your contributions, development, and wellness?

Here's what you'll get:

- Work Life Balance.
- Work from home flexibility.
- Never a dull moment! - Exposure to diverse projects with collaborative teams.
- A work environment that is both rewarding and challenging.
- Successful training program to acclimate you in your new role & continued learning, including tuition reimbursement and weekly dedicated time towards development.
- Competitive Full-Time Benefits including Paid Time Off, Health, Retirement, Education & **more!**
- In-person and virtual social gatherings and events.

NEXA | EAM is searching for:

A full-time, on-site, Calibration Technician to support our client in Dundalk, Co. Louth, with activities related to the set up or optimization of their Calibration programs. You will report directly to a NEXA | EAM Project Manager.

About the job:

- Execution of calibrations as per site schedule and site procedures, as directed by the Lead Calibration technician.
- Execution of scheduled and unscheduled work orders, where appropriate, as per site schedule and site procedures, as directed by the Lead Calibration technician.
- Troubleshoot problems with instrumentation as necessary and as directed by site supervisors.
- Complete site documentation before and after work tasks, as appropriate.
- Liaise and Work with the Shift/day maintenance team on all instrumentation calibration issues.
- Liaise with Contractors during planned vendor calibrations.
- Participate in the appropriate training.
- Carry out Risk Assessment of instrumentation calibration steps and ensure these are always kept valid.
- Enter calibration certs onto the site Computerised Calibration Management System, as directed by the Lead Calibration Tech and AI&C engineer.
- All work on site to be carried out in accordance with site EHS (Environmental Health and Safety) and Veolia EHS rules and guidelines.
- Execution of Calibration duties as defined by Supervisor on Client Locations.
- Ability to work under own supervision on Client locations while carrying out calibration activities.
