

NEXA | EAM creates value for leading global Manufacturers and Mission Critical Facilities across regulated industries by focusing on the delivery of world-class Asset Management solutions to enable world-class production. Our commitment to achieving excellence helps our clients accelerate delivery of life-changing products to market.

Our EPE Services

The **NEXA | EAM Team** has conducted over 30+ custom Exploratory Phase Evaluation (EPE) projects across four continents, which has resulted in significant cost savings, as well as improvements in the efficiency of our Client's Asset Management Programs.

So what exactly is an NEXA EPE?

NEXA's unique service offering identifies areas of improvement in your Asset Management program by conducting an holistic view of how your site operates. Through a series of interviews and data collection involving all necessary engineering functions within your team, we can quickly and thoroughly identify areas of improvement that will have the biggest impact on your operations.

Our EPE Approach

- Step 1:** NEXA Specialists assigned to project
- Step 2:** Team conducts onsite interviews and reviews data
- Step 3:** Team analyzes information gathered
- Step 4:** Fully detailed EPE report provided with our recommendations

Our process typically is completed within a two-week period.

Exploratory Phase Evaluation

- Are you unsure of where to start and would like to assess the current state of your Enterprise Asset Management (EAM) Program?
- Do you need evidence of ROI before securing funding to improve your EAM Program?

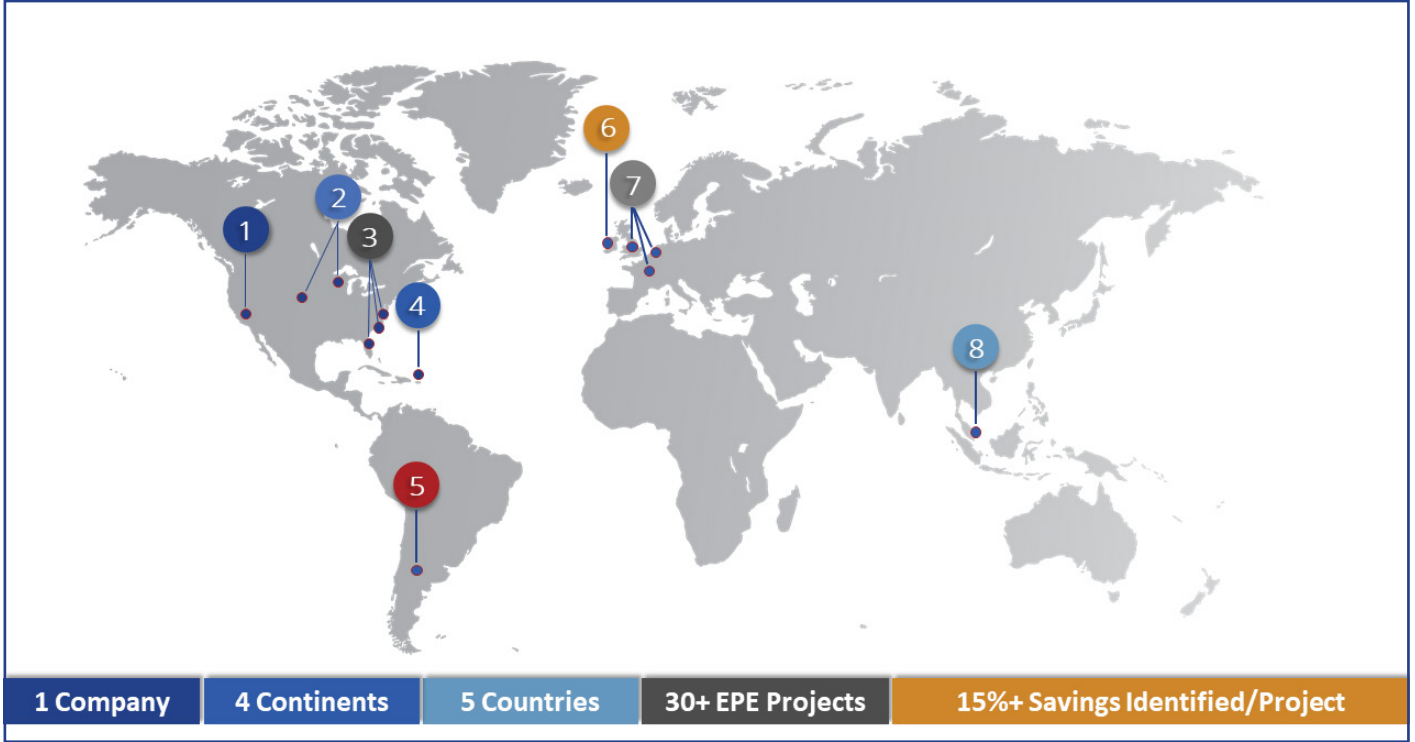

If so, then the **NEXA | EPE** is the best place to start. Get in touch with us to discuss the first step in transforming your EAM Program.

NEXA | EPE GUARANTEE

We will guarantee identified savings of 15% of your Annual Program spend, or your EPE will be free.

With proven client results time after time, we are confident in our ability to help you improve your EAM Program.
