

✓ Validation Services

Thermal Mapping Experts

Whether you're opening a new warehouse, modifying existing HVAC equipment, or preparing for an audit, our NEXA validation team is here to help you complete a performance qualification to ensure that the environmental storage conditions of your products and regulated materials are being met.

NEXA's guarantee

+1,500

specialized data loggers

Fast and simplified
paperless validation
process

Cost reductions with
customized solutions

NEXA's seasonal environmental mapping services are offered in two delivery models:

✓ Onsite Validation

A convenient solution, where our validation engineers:

- Prepare test protocols
- Program and place data loggers
- Provide mapping reports

✓ Remote Validation Solution

In this case, we pair equipment rentals with remote support from our validation team, resulting in savings by eliminating travel and onsite fees.

No matter what you decide is the best solution for you, at NEXA, our validation team **will be with you every step of the way**, ensuring you receive the exact level of support you need.
