

Who we are:

NEXA | EAM, founded in 2015 in Ireland, began with just one client and one employee. Today, we are a trusted advisor to leading companies in the Life Sciences industry around the world with a growing team of 75 employees. Our team of understanding, talented professionals create value for leading Life Sciences companies by focusing on the delivery of Asset Management solutions to enable world-class production. Our commitment to achieving excellence helps our clients accelerate the delivery of life-changing products to market. We achieve this through our people, who are always our highest priority. Are you ready to join a growing team that values your contributions, development, and wellness?

Here's what you'll get:

- Work Life Balance.
- Work from home flexibility.
- Never a dull moment! - Exposure to diverse projects with collaborative teams.
- A work environment that is both rewarding and challenging.
- Successful training program to acclimate you in your new role & continued learning, including tuition reimbursement and weekly dedicated time towards development.
- Competitive Full-Time Benefits including Paid Time Off, Health, Retirement, Education & **more!**
- In-person and virtual social gatherings and events.

NEXA | EAM is searching for:

A full-time, Calibration Engineer II to support our clients in Newbridge, Ireland with activities related to the set up or optimization of their Calibration programs. You will work on-site with one of our new, leading Life-Science clients and will report directly to a NEXA | EAM Project Manager.

About the job:

- Reclassifying instrumentation properly through a Criticality Risk Assessment (CRA) program.
- Reducing calibrations per year through a Calibration Interval Analysis (CIA) program.
- Support in reducing the number of Out of Tolerance (OOT) events per year by investigating root cause of failures and developing strategies to eliminate these causes.
- Assisting with identifying gaps in the Calibration master data that could cause compliance issues and amending these gaps.
- Providing Subject Matter Expert-level support for instrumentation decisions.
- Assist with other projects, as required.

We are looking for people with:

- Associates, bachelor's degree, or trade certification (e.g., ASQ CCT) in a related Engineering field.
- In the absence of the above, proven work history in a Life Science Calibration/ Engineering role will also be considered.
- 3-5 years of experience in Life Science Calibration/ Engineering Role.
- Proficiency in suggesting calibration parameters and diligent with documentation & CMMS use.
- Strong computer skills including advanced proficiency in MS Office, specifically MS Excel.
- Previous experience in acting as a lead / single point of contact for technical issues, program issues, training etc.
- Ability to speak confidently to Instrumentation issues and potential improvements.
- Understanding of Calibration Business Processes and where optimization is possible.

You will be a match if you are:

- Understanding of your client's and colleague's needs.
- Willing to operate the NEXA way, every day, by showing relentless drive in ensuring success.
- Attentive to detail and believe passionately in "Right First Time."
- Proactive in everything you do.
- An advocate of continuous improvement, which is vital to continued success.
- Adaptable and flexible to meet client and project needs.

If this sounds like you, apply today by: Emailing your updated resume to our HR & Recruitment Specialist – Candalee Alicea at calicea@nexaeam.com
