

Who we are:

NEXA | EAM, founded in 2015 in Ireland, began with just one client and one employee. Today, we are a trusted advisor to leading companies in the Life Sciences industry around the world with a growing team of 75 employees. Our team of understanding, talented professionals create value for leading Life Sciences companies by focusing on the delivery of Asset Management solutions to enable world-class production. Our commitment to achieving excellence helps our clients accelerate the delivery of life-changing products to market. We achieve this through our people, who are always our highest priority. Are you ready to join a growing team that values your contributions, development, and wellness?

Here's what you'll get:

- Work Life Balance.
- Work from home flexibility.
- Never a dull moment! - Exposure to diverse projects with collaborative teams.
- A work environment that is both rewarding and challenging.
- Successful training program to acclimate you in your new role & continued learning, including tuition reimbursement and weekly dedicated time towards development.
- Competitive Full-Time Benefits including Paid Time Off, Health, Retirement, Education & **more!**
- In-person and virtual social gatherings and events.

NEXA | EAM is searching for:

A full-time, hybrid, CMMS Engineer I to support our clients with project needs, located in Millburn, NJ. You will work on one of our new, leading Life-Science client sites and will report directly to a NEXA | EAM Project Manager.

About the job:

- Field walkdowns to verify the accuracy of the equipment data.
- Carry out all technical data reviews and entry on the system.
- Translating & cleansing of raw data in preparation for the Data Migration.
- Assist in preparation of client project status reports and immediately communicate to the Project Manager on any deviations from the project or delays to the project progress.
- Meet regularly with all stakeholders to discuss progress, communicate changes, and support the entire change effort.
- Assist with other continuous improvement and optimization projects, as required.

We are looking for people with:

- Associates, bachelor's degree, or trade certification in a related Engineering field.
- In the absence of the above, 0-3 years of experience with CMMS systems.
- Ability to multi-task in a high volume, fast-paced work environment with strict deadlines.
- Strong interpersonal, organizational, and communication skills.

Desirable:

- Knowledge of Calibration/Maintenance Business Processes and Industry Regulations. Strong computer skills including advanced proficiency in MS Office, specifically MS Excel.
- Experience in using (CMMS) Computerized Maintenance Management Systems.
- Experience with data analysis.

You will be a match if you are:

- Understanding of your client's and colleague's needs.
- Willing to operate the NEXA way, every day, by showing relentless drive in ensuring success.
- Attentive to detail and believe passionately in "Right First Time."
- Proactive in everything you do.
- An advocate of continuous improvement, which is vital to continued success.
- Adaptable and flexible to meet client and project needs.
